CONVEYANCE.—In transit all goods are at the risk of the purchaser, and no insurance is effected unless we are so instructed. When the route and mode of transit and method of consignment is left to us, we do everything in the interest of our customer to forward **expeditiously** and as **cheaply as possible**; but as it is not always possible to make these conditions coincide, we are always glad to have instructions from the purchaser, *e.g.*, as to whether the goods are to go by water or rail, or partly by one and partly by the other; if by water whether insurance is to be effected or not; if by rail, whether by goods or passenger train; also if the goods are to be booked at any particular rate, such as Grain, Pea, or Agricultural Seed Rate. We do not hold ourselves responsible for any errors which may arise during transit.

NEW CUSTOMERS will always find us ready to serve them, provided that they send Cash or a satisfactory reference with their first order.

EARLY ORDERS are always very much appreciated, as they allow us to make headway with their preparation before the press of the season commences.

ALL TELEGRAMS should be *signed*, to avoid delay.

OUR NOVELTIES AND SPECIALITIES can only be obtained in our Sealed Packets, or direct from us, and are delivered at the rate of 24 retail packets to the dozen, or two for one, *i.e.*, half price. Any number supplied.

We give **NO WARRANTY**, either express or implied, as to the growth, kind, description, quality, productiveness, or any other matter regarding any Seeds we sell; nor will we be in any way responsible for the crop resulting therefrom. If the purchaser does not accept them on these terms he must return them at once, as they are sold upon these conditions only. Where purity or growth are mentioned, they are only for guidance, and without guarantee.

Only Address: **Kelway & Son, Langport, Somerset.**

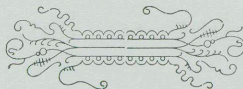

ESTABLISHED A.D. 1851.

WILLIAM KELWAY.

JAMES KELWAY.

LIVING IN THE COUNTRY, FARMING OUR OWN LAND,
we are able to give that continuous personal supervision to
the selection and saving of Stock Seeds which is necessary to ensure
the purity and high quality which the Trade requires.

WE print real prices which—as long as unsold and without engagement—**we are willing to accept.**

The prices are nett, except that they are subject to the ordinary discounts for cash. To meet any reputable competition, we will reduce our prices still further on being given the opportunity.

ELECTROS will be **lent gratis** (for catalogue work only) to firms who are customers for the strains which the electros illustrate. Early application should be made.

Our aim is, firstly, quality; *secondly*, quality; **THIRDLY**, quality.

Kelway & Son

NEW ! !

The best of all Peas,

KELWAY'S BEAUTY.

Of **Gradus** type, but so hardy that it can be sown much earlier and is ready a week to ten days earlier than that variety.

The pods, borne in pairs, are **larger and more even in size than Pilot**, and contain fine deep green peas of excellent flavour when cooked. It is undoubtedly the best Pea ever offered and

THE BEST PEA FOR MARKET.

One of the largest growers says it is the hardest culinary pea he has ever grown.

Orders, to be executed in rotation, will be accepted, for 1907 crop (subject to crop failure), at 20/- per peck.

VEGETABLE SEEDS

These prices, to which we draw **particular** attention, are subject to no discount excepting a Cash Discount.

For smaller quantities than $\frac{1}{8}$ cwt., $\frac{1}{4}$ bus., $\frac{1}{4}$ lb., or $\frac{1}{4}$ oz., respectively, an advance in prices will be made.

ROOT SEEDS.

All our Stock Seeds are saved from specially-chosen
transplanted Roots.

We have been for over half a century Growers and Selectors upon our own farms, at and near Langport, of Special Stocks of Swedes, Mangolds and Turnips, and we honestly believe and state with the utmost confidence that purer and choicer kinds than our Special Sorts have never yet been sold. This refers in proportionate degree to our strains of other varieties. ALL are to be relied upon as the best of their kind, and undergo rigid selection.

To some varieties we have affixed prices which we are willing to accept at the moment of going to press, but we enter into no engagement to adhere to these prices for any period longer than suits ourselves.

Mangold.

KELWAY & SON'S LANGPORT PRIZETAKER

YELLOW GLOBE (Title Registered). The entire stock was originally selected from one bulb. It has a very small top and very few fibrous roots, it is therefore lifted with a minimum of labour, and is fed with a minimum of waste; its symmetrical shape and attractive colour make it unequalled for exhibition. The flesh is of the densest consistency and most nutritive quality, and it reaches a very great size; consequently it is *an exceedingly heavy cropper*, and is absolutely unsurpassed in this respect. Having been fixed as a variety for such a number of years, its sportive character is practically *nil*, but we are untiring in our annual labour of selecting stock roots to grow from. *We send a very fine coloured representation of this variety to those who stock it, mounted on canvas and rollers ready for hanging (see illustration herewith).*

Put up in 2-lb., 4-lb., 7-lb., and 14-lb. sealed printed canvas bags, at 48/- per cwt. (carriage paid). The variety can only be obtained from **Kelway and Son, Langport.**

KELWAY'S IMPROVED CORNER'S YELLOW

GLOBE. This needs no introduction in the West of England. The stock originated in our neighbourhood, and seed was obtained by us from Mr. Corner himself upon its introduction. Though so near perfection at that time, the great care we have bestowed upon it has evidently been appreciated by our customers

KELWAY'S INIMITABLE LONG RED.

An immense cropper. We recommend it beyond any for weight, feeding properties, and ease in lifting

KELWAY'S RE-SELECTED MAMMOTH (or GIANT) LONG RED.

The properties of the original Mammoth are well known. This is a very careful selection from it, having in view the elimination of coarseness whilst keeping it of a large size

KELWAY'S EXHIBITION GOLDEN TANKARD.

We have never had greater satisfaction in introducing any sort than we have in recommending this superb variety. It was found amongst our "Model" Golden Tankard, to which it is superior in the dark colour of the skin and the rich golden hue of the flesh. The perfect "Tankard" shape of the original "Model" is retained together with its highly saccharine quality and extreme solidity of flesh. An enormous weight per acre is obtained from it.

KELWAY'S

Langport Mammoth.

(Registered Title.)

The Hardy Heavy Cropping

Purple Top Swede.

This variety is an enormous cropper, one of the most hardy and disease-resisting sorts in cultivation, seldom getting mildewed, and the highest quality Swede in cultivation. It possesses the useful property of growing freely in all kinds of soils. It is as near as possible globe shaped, with a very short neck, dwarf foliage, and a clean single tap root. It possesses very dense sound flesh. The portion of the root growing out of the ground is of a deep plum colour. We annually save large quantities of this variety entirely from our own stock seed on account of the increasing favour with which it meets. Our stock is still as pure as ever.

A fine representation of this variety, 2 feet by 3 feet, painted in oils from nature, mounted on canvas, and framed, will be sent to all who stock it.—See annexed illustration.

Put up in 2 lb., 4 lb., 7 lb., and 14 lb. sealed printed canvas bags, at 90/- per cwt. (carriage paid). The variety can be obtained only from Kelway & Son, Langport.

KELWAY'S

Langport Monarch,

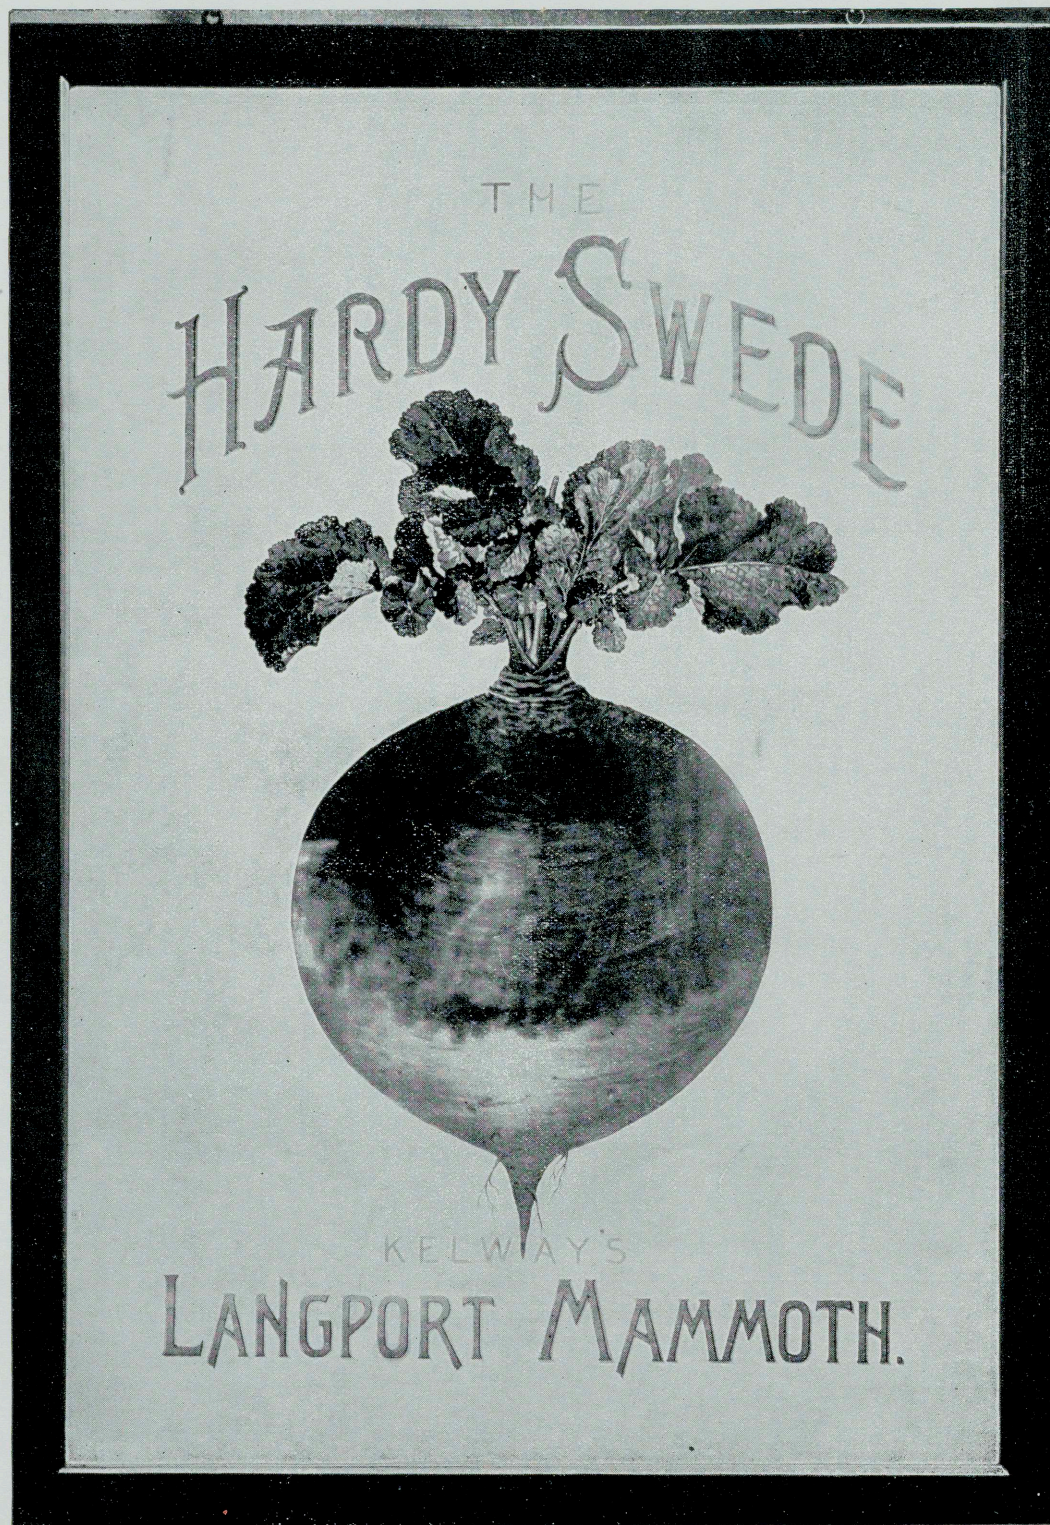

32/- per bushel.

The Langport Monarch is rather higher in the shoulder than the Langport Mammoth, and the root grows further out of the ground. The upper portion of the bulb is of a bright carmine colour. The flesh is very firm, the top short, and the absence of fibrous or forked roots remarkable. The crop per acre is unsurpassed; but it does not keep so long as the Langport Mammoth.

KELWAY'S FARMER'S FAVOURITE,

an introduction which is bound to become grown on a larger scale year by year, as it will take the place of White Turnips throughout the Kingdom as a food for stock; it is exceedingly hardy and abundantly nutritious, and produces an enormous crop of most attractive-looking roots with deep yellow flesh and a green top

"Sirs,—Having grown your **Telegraph** (Kelway's Improved) Cucumbers for the last six years, and being large growers of same, we have this season four span-roof houses 50 feet each in length. The Cucumber fruits at every joint, and throws out three to four fruits. We have had several persons in the Trade visiting us this season, and they tell us they never saw such a sight. You may use this in any way you please, and we shall be glad to show anyone over the nursery.

Kelway & Son were awarded a Vote of Thanks by the Royal Horticultural Society for an exhibit of their superior strain of this variety as grown at Langport.

BRITISH GREEN BOILER (Kelway & Son's New 1907), an improved Harrison's Glory, the pod being deep green and smooth instead of being covered with whitish bloom. Recommended for trial by growers 40 0

THE LINCOLN (New). We have the greatest confidence that this will become one of the leading varieties in a very short time, owing to its abundant yield. It is a second early, growing about 1½ feet in height; long, curved, deep green pods, similar to *Gladstone* in shape and as well filled; foliage and habit of growth quite distinct from the *Stratagem* type of short straw pea, and is literally covered with pods in pairs 40 0

KELWAY'S PRODIGY, the finest variety for exhibition and general use; very hardy and of fine flavour. This has been tried side by side with all the advertised "best" sorts, and has proved the finest of all, and in Scotland the hardiest of any; specimens have been grown weighing upwards of 4 lbs. each .. 10 0

Onion.

Per lb.—s. d.

KELWAY'S HERO. We recommend this as the finest form of a reliable heavy cropping and long-keeping Onion. The bulbs are exceedingly handsome when matured, and are continually taking prizes where exhibited. The colour of the skin is a tawny yellow or very light brown; the bulbs attain a very great size, and on account of the density in texture of the flesh are of enormous weight. They are of great depth without being unduly swollen at the neck, and thus in shape are between the "globe" and "flat" varieties. We highly recommend it for general use as well as for exhibiting 10 0

KELWAY'S CRESTED GEM. One of our most popular specialties. It is without doubt the most lovely plant for garnishing that it is possible to conceive. It is a kind which has been fixed by many successive seasons' selection by ourselves 5 0
